BE MY VALENTINE

Celebrating Valentines day with our furry friends

FEBRUARY IS FRIENDSHIP MONTH

PET DENTAL HEALTH

THE MONTH OF FEBRUARY

The month of February represents friendship month, so make sure that you show your appreciation to your furry friends this month with a fun hike, or new toy.

February is also pet dental month, see our article below for tips to eradicate that dog breath.

February 27th is world spay day

BE MY VALENTINE

Who's your furry Valentine, and how do you plan to celebrate the February 14th? Dinner for 2? Movie and cuddle time? A bubble bath and massage? So many choices when it comes to celebrating the ones we love. Make it a special one.

PET DENTAL HEALTH

February is pet dental month, so what better time to discuss your pets pearly whites. Like us, pets need routine dental care and exams. Your veterinarian most likely examines your pets mouth during their yearly physical. Lack of dental care in our pets can lead to many other issues including infection, pain, and the dreaded dog breath. Routine dental cleanings with your veterinarian is the very best way to ensure that your pets mouth is healthy.
